

Wisemann

Woodwind & Brasswind

WISEMANN has a solid team that has a group of energetic and skilled workers full of passion for music and making quality instruments. Our mission is to make Wisemann name known by the global players for its top quality band instruments made in Beijing, China. Focusing on the quality (details of each instrument) and keeping Wisemann away from other low end cheapest band instruments are the most important things to us instead of pursuing big quantities. We are confident of our Wisemann horns as we are working on each instrument full of care and love of music.

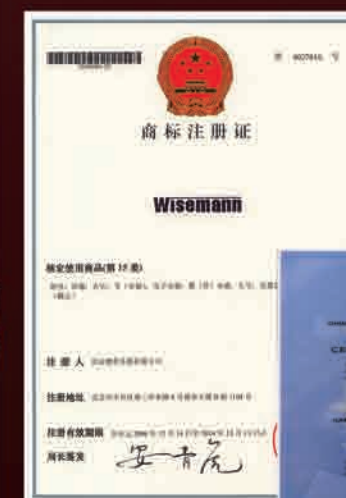

Why Wisemann woodwind & brasswind ? Nine features help you make such a Wise Choice!

1. Selected finest copper brass materials and parts,
2. Advanced CAD support makes 100% precise moulds,
3. Special-made bell with free vibration,
4. Advanced machines and hand-lapped valves and slides,
5. Special hand-lapping and buffing procedure takes care of every details,
6. Advanced lacquering and plating technologies guarantee a shining surface,
7. Special air-pressure testing guarantee air tight and easy & free blowing,
8. Imported Advanced sound & vibration test software and hardware system applications control and verify sound quality with digital sound waves,
9. Quality-oriented team of musicians and engineers full of love & passion for music.

Lin Rountree, the Jazz and R&B Trumpeter, is the latest artist to emerge from the 'new' Detroit music factory.

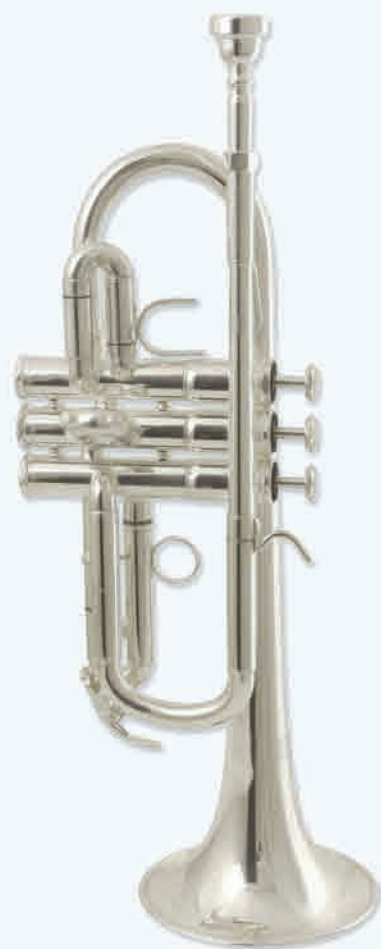

Lin began playing the trumpet when he was just 11 yrs. old, And has shared the stage with many notable artists.

His playing has been described as soulful, funky, and inspirational. Be it R&B, or Jazz, he has an innate ability to connect his music to his listener's soul.

The first single "For Your Love "in his debut project, GROOVETREE, BDK Records 2005, stayed on the SJ Charts for 15 weeks , showing the world that Rountree is the real deal.

Wisemann - Be a Wise Man!

John Samuel Wood

WISEMANN TUBA ARTIST

John currently resides in Beijing where he is a Freelance Tuba Artist, Recording Studio Artist, Music Educator.

Born in the UK, John studied in London at the Royal Academy of Music under Patrick Harrild of the London Symphony Orchestra and in Manchester at both the Royal Northern College of Music and Chetham's School of Music.

John has performed with professional orchestras such as the Beijing Symphony Orchestra, China National Centre for the Performing Arts Orchestra, Royal Liverpool Philharmonic Orchestra, Manchester Hallé Orchestra, Britten-Pears Orchestra and ensembles including the London Philharmonic Orchestra Symphonic Brass Ensemble, Black Dyke Brass Band and brass quintet. He has also recorded for Sony Records and BBC Television & Radio and in Beijing is an active musician on the studio recording session scene (movie soundtracks, TV, Radio, and Pop artists). As a soloist, John has recently performed with the China Dunshan Symphonic Wind Orchestra where he was Principal Tuba for the 2010 - 2011 season. John is also the founder and Artistic Director of the City Brass Ensemble.

A highly committed educator, John's work includes teaching at the Western Academy of Beijing, International School of Beijing, Beijing City International School and Dulwich College International School of Beijing. John has also coached the brass for the Beijing Youth Orchestra and has presented Tuba and brass chamber ensemble master classes at renowned institutions such as the China Conservatory of Music, Beijing.

DEU-900SP Professional Model

The Wisemann DEU-950 / DEU-900 Compensating Euphonium features four stainless steel valves with 3 top and 1 side action design with compensating system to bring the lower register in tune and it offers great intonation, free-blowing, flexibility, and control in all registers with a rich tone, particularly in the difficult low range. Its lead-pipe is not directly soldered to the bell, but is instead connected by a brace, allowing the bell to vibrate more freely. The DEU950 Compensating euphonium is designed to meet the performance needs of the pro-level players.

EUPHONIUM

WISEMANN EUPHONIUM ARTIST

Fan Qing is one of the youngest professional euphonium players today in China. At the age of 26, he has given numerous workshops and concerts throughout China and Europe.

Born in Shanghai, China, Fan Qing began his musical study at 4 with piano and joined the middle school band later as a baritone player when he was 12. After winning a prize of Shanghai Spring Music Festival Brass Competition, he moved to Austria. At that time he was given lessons by numerous great brass players, such as Steven Mead, Dietmar Küblb?ck, Friedrich Loimayr, Brian Bowman, Hakazono Schoichiro etc...

From 2005 Fan Qing studied in University Berne of Arts, Switzerland, major euphonium education with Swiss euphonium soloist Thomas Rüedi, and Roland Fr?scher. Up on graduation in summer 2009, he continued to study band conducting with Ludwig Wicki and finished master performance of arts degree on 2011.

Fan Qing has played with several finest bands in Europe, such as World Youth Wind Orchestra, Akademischen BI?serphilharmonie Vienna, Brass band Berner Oberland, Brass Band Rapperswil-Wieriezwil and La Landwehr de Fribour etc...

As a Soloist, Fan Qing has given concerts in Switzerland, Japan and most important cities in China such as Shanghai, Beijing, Hangzhou, Wuhan... Currently Fan Qing plays in the China Dunshan Symphonic Wind Orchestra as Co-Principal Euphonium.

PROFESSIONAL SAXOPHONE BY HAND MADE

SAS-007 Professional Straight Alto Saxophone

THE INNOVATIVE DESIGN OF THE NECK JOINT OF THIS SAXOPHONE HAS RECEIVED WORLDWIDE ACCLAIM.

Key: Eb
Finish: Black Body Silver
Plated Keys And Bell
Body: Straight
Engraving: Bell
Neckjoint: Special Design
Auxiliary Keys: #F
Pads: Premium
Needle Spring: Stainless Steel
Case: Wisemann Case
Mouthpiece: Included

Straight Alto Saxs, are handcrafted one at a time to maintain consistent high quality, professional instruments. This handcrafting is evident in the flawless movement of the key mechanisms and smoothness of the overall register. The temperature of the entire instrument is controlled during soldering and assembly in order to avoid any change in the characteristics of the high grade material used in manufacturing.

The revolutionary design of the neck assembly allows for the minimum disturbance to the air flow of the instrument. By utilizing a smooth joint between the neck and body, the air moves unhindered through the horn improving timbre and intonation in the median register. The innovative design of the neck joint of this saxophone has received worldwide acclaim. A patent has been applied for this design which will change forever the way we look at saxophone construction.

Born in Michigan, saxophonist Shelby grew up in Detroit and began his Jazz life when he was 13 years old. It was George Howard which led him to appreciate many famous jazz musicians. Shelby first hit the airwaves in 2003 with Miracle, and his new CD No Boundaries is definitely worthy of an audience. Shelby became the proud endorser of Wisemann Saxophones this year, And his new line of Sax's the Shelby Brown series are on the market now.

Wisemann®

BEIJING WIND INSTRUMENTS MANUFACTURING CO.,LTD is a solid team that has a group of energetic and skilled workers full of passion for music and making quality instruments. Our mission is to make Wisemann name known by the global players for its top quality band instruments made in Beijing, China. Focusing on the quality (details of each instrument) and keeping Wisemann away from other low end cheapest band instruments are the most important things to us instead of pursuing big quantities. We are confident of our Wisemann horns as we are working on each instrument full of care and love of music.
